SUMMARY

Software Engineering undergraduate (BSc Hons IT, University of Moratuwa) with hands-on experience in full-stack web and mobile application development. Experienced in building RESTful APIs, implementing authentication and authorization using JWT, and developing secure backend workflows. Strong foundation in software engineering principles, problem-solving, and collaborative development. Actively seeking a Software Engineering Internship to apply technical skills and gain industry experience.

EDUCATION

B.Sc (Hons) Information Technology

University of Moratuwa - Sri Lanka
GPA - 3.49

2023-2027

G.C.E Advanced Level (Biological Science Stream)

Govt/ Science College - Matale
Biology(B), Physics(B), Chemistry(A)

2021

G.C.E Ordinary Level

Govt/ Science College - Matale
8A's B

2016

TECHNICAL SKILLS

- **Languages:** Java, JavaScript, Typescript, C, Python, Dart
- **Web & Frameworks:** Node.js, Express.js, Spring Boot, Next.js, React.js, Tailwind CSS, MUI, HTML, CSS
- **Mobile Frameworks :** Flutter
- **Databases:** MySQL, MSSQL, MongoDB
- **Tools & Platforms:** Git, Postman
- **Design:** Figma, Canva, GIMP
- **APIs & Security:** REST APIs, JWT Authentication

PROJECTS

Carely – Healthcare Appointment System (Individual Project)

2025-present

Tech Stack: MERN Stack, Python, FastAPI, Machine Learning, MongoDB

- Designing and developing a semi-intelligent healthcare platform for medical appointment scheduling.
- Implements RESTful APIs using FastAPI for symptom analysis and appointment management.
- Integrating a machine learning model to recommend the most suitable medical specialist based on patient symptoms and history.
- Building secure authentication flows and real-time appointment booking features.

Comprehensive Garage Management System (Group Project – TayCanTech Pvt Ltd)

2025

Tech Stack: React.js, Node.js, Express.js, MongoDB, JWT

- Developed frontend and backend modules for a web-based garage management system.
- Implemented role-based authentication and authorization using JWT for customers, technicians, and managers.
- Built customer feedback and service management features to improve user experience.
- Collaborated in an agile team environment following software engineering best practices.

My Portfolio (Individual Project)

2026

Tech Stack : Next.js, Tailwind CSS, Typescript

- Designed and developed a modern, fully responsive personal portfolio showcasing projects and technical skills. Implemented smooth UI animations using Framer Motion and integrated a seamless dark/light mode toggle for enhanced user experience. Deployed via Cloudflare Pages

StockCast – Distributed Real-Time Broadcasting System

2025

Tech Stack: Java, Spring Boot, Java NIO, TCP, UDP, WebSocket

- Engineered a high-throughput, non-blocking server using Java Spring Boot and Java NIO.
- Implemented a publish-subscribe architecture for efficient real-time data distribution.
- Achieved sub-second latency while handling concurrent client connections across multiple protocols.

Weather App (Individual Project)

2025

Tech Stack: Flutter, Dart, OpenWeatherMap API

- Developed a cross-platform mobile application to fetch and display real-time weather data.

Project Aegis – Blockchain-Powered Esports Platform (Group Project)

2025

Hackelite Competition – IEEE, University of Moratuwa

Tech Stack: Next.js, FastAPI, PostgreSQL, Solidity, Polygon, Ethers.js

- Contributed to full-stack development of a decentralized esports tournament platform.
- Developed frontend and backend modules.

TIC_TACK_TECH Game Box (micro-controller-based system)

2024

(Level – 1 Hardware project)

A micro-controller based interactive game system inspired by the SOS game play concept

EXTRA-CURRICULAR & VOLUNTEERING

- Committee Member – IEEE Women in Engineering (WIE), University of Moratuwa
- Design Committee Member – IEEE UoM
- Member – University Basketball Team
- Member – School Netball & Table Tennis Teams

CERTIFICATIONS

- Authentication and Authorization in Web & API Security – Linux Foundation
- Introduction to Cybersecurity – Cisco Networking Academy
- Blockchain: Understanding Its Uses and Implications – Linux Foundation
- Programming Foundations: Software Testing/QA - LinkedIn Learning
- Complete guide to Cybersecurity: A practical approach- LinkedIn Learning
- Brainstorm Competition (2025): Developed a medical-related web application.
- Mora Xtreme 9.0 Coding Hackathon (2024)- Participated in competitive coding event.
- Participated Code Rush Coding Hackathon (2023)

REFEREES

Mrs. Roshani Wijesuriya

Phone: +94 71 988 2759

Email : wijesuriyar@uom.lk

Lecturer/ Supervisor of 2nd year project

Faculty of Information Technology

University of Moratuwa

Mr.Hiran Madhushanka

Senior Software Engineer

We Make Platforms
